## MAKE A PAPER BANGER

Make a loud bang with a sheet of paper! It will show you how a sudden movement sends a powerful sound wave through the air, great fun at Pack and Troop meetings. You can use the banger to surprise and startle your friends, then they will all want to make one.

You will need:  
A sheet of newspaper  
about 30cm x 40cm  
or an A4 page.

1. Fold the longest edges of the paper together and open it out again.

2. Fold down each of the four corners to the first centre fold.

3. Fold the paper in half along the first fold

4. Fold the paper in half again and then open it out.

5. Fold down the top two corners.

6. Fold the paper back to make a triangle shape. The banger is now ready.

7. Grip the banger firmly by the two top corners. swish it down sharply with a quick flick of the wrist. A loud bang occurs!

A flap of paper springs out, causing a sudden movement of air. This sends a powerful sound wave rushing through the air. You hear this as a bang.
